Anne,

I apologize for the delay, I have been playing catch up since we returned. I would conservatively estimate %15-20 percent of my time charged was spent on the removal. By the time I was assigned, it had already been completed. Thus, the majority of my efforts devoted to the removal were on stipulated penalty issues.

Hi all,

We need to bill the San Jacinto PRPs for the oversight of the removal action, and we need to separate the removal from the RI/FS costs for the time period of the removal (see attached SCORPIOS). I would greatly appreciate your assistance.

Here was my initial cut to include as removal oversight: all Valmichael's time and travel, with associated indirects; all the two removal contractor's amounts; and all the Corps of Engineers. We also should include some percentage of the legal time and travel as being removal oversight; I have well-buried notes on whether I was working on the RI/FS or the removal, but Barbara, Jessica, or Amy – if you have any thoughts on this issue, I would appreciate them. In a past case where we had to go back after the fact and separate costs for billing purposes, we came up with well-reasoned and pretty conservative percentages and applied them to the different areas of cost instead of trying to go line item by line item.

While Bob and Stephen and Gary a/k/a Michael have spend some time on the stipulated penalties issue, I would tend to say we should not include any of their time unless they have specifically noted they were working on the removal. Again, I think we should be conservative.

The end goal – using the oversight money to fund a special account.

Also, Valmichael and Barbara, if you can, please flip through the SCORPIOS and see if there are any other names or contractors who did significant work on the removal that I missed.

Thanks.

Anne,

As requested, please see the attached SCORPIOS report for costs from May 17, 2010 (effective date of Administrative Settlement Agreement) through August 31, 2013 for \$2.3M. This report includes all intramural and extramural costs for the timeframe. As discussed, I understand that all of this costs may not be applicable for billing under this settlement agreement. In preparation to bill the Respondents for response costs, please review the report to determine if all costs are applicable or just a portion for billing for the removal action. We can schedule some time to meet to discuss if needed. Please let me know if you have further questions.

Thanks.
